

## 7<sup>th</sup> Advanced Seminar, European Nutrition Leadership Platform

Luxembourg, 21-25 March 2018

### General information

The European Nutrition Leadership Platform (ENLP) was pioneered 23 years ago to develop and cultivate leadership skills among nutrition scientists in Europe. Its mission is to establish an independent and sustainable network of leaders *'to train, educate and inspire the next generation, and ensure a strong impact on nutrition and health'*. Organized by a group of leading European nutritionists, in close collaboration with a consortium of European universities and research institutes (ENABLE), and funded by sponsors from the European food industry, it is part of global network of Nutrition Leadership Platforms (NLPs).

The Platform organises two seminars, ENLP Essentials and ENLP Advanced, which have been proven as an extremely inspiring and effective model to develop leadership and communication skills. By now, more than 700 people have taken part, creating an extensive network of nutrition professionals.
