ENLP is a dynamic network of food and nutrition professionals that makes a difference through improving non-scientific, transferrable skills such as communication, influencing and leadership.

Two training courses held annually give access to the network:

**ENLP Essentials Seminar** for early-career professionals <35 years. A 1-week programme on understanding leadership, communication and team building.

**ENLP Advanced Seminar** for mid-career/senior professionals >35 years. A 3-day programme on effective leadership, emotional intelligence and strategic influence.

Former participants keep the network engaged through active networking and organising training days and scientific sessions.
The European Nutrition Alliance to Bolster the Leadership Programme (ENABLE) is composed of the most prestigious European universities and research institutes focused on nutrition and food science. ENABLE embodies the academic support and presence in the ENLP.

**THE POWER OF THE NETWORK: FROM LOCAL TO GLOBAL**

**ENLP Local Circles** are network circles located in numerous cities throughout Europe. The Local Circles meet regularly and hold lively debates on hot topics, organise training sessions, and engage with the wider local community of experts, including national nutrition societies.

**Global Nutrition Leadership Platform**: the strong ENLP model and its counterparts in Africa, South-East Asia, Oceania, Middle-East, and Latin-America, are forming an integrated platform to strengthen and expand nutrition leadership to a global level, harnessing international leaders to tackle the global burdens of malnutrition.

**PARTICIPANTS COME FROM ALL OVER EUROPE**

Want to get involved and gain from the ENLP?

Finanacially support the programme

As an exclusive network of food and nutrition professionals, the ENLP provides its supporters a range of unique benefits including:

• Access to a network of highly talented food and nutrition professionals
• A unique chance to train and support future leaders
• Opportunities to share knowledge and build links with food and nutrition professionals from different sectors (industry, academia, institutions, NGO)
• Involvement in the ENLP course, as participant or as mentor
• Enhanced visibility within the food and nutrition professional community across Europe
• A possibility to discuss and shape the ENLP programme

For further information on how to support and benefit from the ENLP network, contact us and learn about the different levels – bronze, silver and gold – of membership, tailored to your organisation’s needs and budget.

Scientifically support the programme

Universities and research institutes focused on nutrition and food science that want to support and contribute to the ENLP can apply to become part of the European Nutrition Alliance to Bolster the Leadership Programme (ENABLE), at no cost.

Participate in the training seminars

Both annual ENLP Essentials and Advanced Seminar are held in spring. The online application process is late autumn and finalised before the end of the year.

ENLP Facts & Figures

- 723 nutrition professionals from 1994 to 2016

- 67% of the alumni who followed the course 10+ years ago has obtained a leadership position

- 67% of those work in academia, 18% in food business, 6% in NGOs, 5% in their own businesses, 4% in governments.
“I feel that my company has a responsibility to contribute to identify and support future leaders in nutrition, it’s a long-term investment”

Nicolas Gausseres, Global Nutrition Director at Danone

“My company and the ENLP have a common objective, namely to support young talent to develop leadership skills to make the world a better place”

Paul Whitehouse, Director Nutrition and Health for Europe at Unilever

“We really appreciate the leadership and networking platform that the ENLP provides to those early in their career within the nutrition field”

Peter Weber, Corporate Science Fellow at DSM

“The leadership training is impressive, the only one in its kind. It also brings together nutritionists from different sectors”

Jörg Spieldenner, Department Head Public Health Nutrition at Nestlé
